FOREST FIRES AT MINIMUM THIS YEAR

(San Francisco Chronicle)
Will C. Barnes, grazing inspector of the United States Forest Service, arrived at the St. Francis from the Sierra National Forest, where he has been looking over the government establishment there.

"The damage by forest fires has been reduced to almost a minimum, and we expect to improve upon the present conditions every year," said Barnes. "The damage this year was less than last, and there were no big fires. The fire in the Yosemite was not a serious one. We hope the day of the serious forest fire is about over."

The lumbermen and stockmen, who heretofore took no interest in protecting the forests, are now the best friends of the government. The campers and tourists are being educated, too, and with our service of constantly growing efficiency, we believe that we have the situation pretty well in hand. We are improving our telephone and lookout service all of the time, however.

"The policy of the government is not, as some suppose, to crowd the stockmen, but to give them more scope. We may open several new ranges in California soon. We want to make all of the concessions we can to them, and we are particularly anxious to give the little stockmen a show. It is the policy of the government to extend the ranges of the little men rather than those of the corporations and big holders. The government has put a number of new trails through the reserves this year for the benefit of the stockmen."

Barnes tells an interesting story of the lookout on the top of Mt. Shuteye 10,500 feet above sea level, who sits with powerful glasses throughout the summer, looking for fires and communicating with the men below by telephone. Wood and water have to be carried to him, and his cabin is fastened to a pinnacle of rock by huge iron pins driven into the granite. He never leaves his post for an hour until the first snow flies.

Mr. Barnes will be remembered as a former secretary of the New Mexico Cattle Sanitary board in Las Vegas.

The board of regents of the New Mexico Military Institute has awarded the contract to Lyon & Axtell of Roswell to build the new academy hall which will take the place of Lea hall, destroyed by fire last month. Their bid was \$46,000. The heating and lighting contract, yet to be let, will put the total cost above \$50,000.

While out hunting near Socorro Emil Katzenstein accidentally shot himself through the left hand, tearing away the flesh from the outside of the palm and severing the tendons of two fingers. It looked as though it might be necessary to amputate about half the hand, but Doctor Parvix united the tendons and now thinks he will be able to save all the fingers. The wound is doing well.

Capt. and Mrs. C. T. Brown of Socorro, have just received the announcement of the birth of a girl baby to Mr. and Mrs. Otto Tuschka, of Monterey, Mexico. G. L. Krigg arrived at Elkins, a little town north of Roswell, last Friday night, having come from Stanton, Texas, to locate on his claim five miles west of Elkins. It was a rainy night and he stopped two miles out at the claim of Paul Maton, who with his family was away temporarily. Saturday his charred remains were found in the ashes of the Maton home. It is supposed he set fire to his bed with a cigarette, as he was an inveterate smoker. He leaves a wife and children at Stanton.

A party of government surveyors are working on the Mora grant, trying to locate the corners. Although they have been engaged in the work several days, nothing has been discovered. The boundaries of the grant have always been in doubt, and now that the country nearby is being settled up by homesteaders, the government is trying to establish the lines of the grant in order that there may be no conflicts between the grant people and the settlers. Those in the party are F. R. Ervin, and R. C. Hecker.

After making a brave fight for more than two weeks, Joseph Walsh, son of Mr. and Mrs. Luke Walsh of Albuquerque, died in the Santa Fe hospital at Topeka, Kans., Saturday. Death resulted from a fracture of the vertebrae, which the young man sustained in a football practice game at St. Mary's college, St. Mary's Kans., three weeks ago. It was apparent from the first that the injury was a very serious one and the young man was removed to Topeka and placed in the Santa Fe hospital, under the care of Chief Surgeon J. P. Kaster.

Manuel Aragon, a prominent merchant of Lincoln, Lincoln county, of the firm of Aragon Brothers, who have extensive interests in Lincoln county, was in Roswell last week on important business in regard to buying a ranch from James W. Stockard, manager and owner of the Roswell Automobile company. This ranch property is located fifty miles northwest of Roswell and is seven miles long and four miles wide. The officers and members of Albuquerque council No. 641, Knights of Columbus, are busily engaged in making preparations for the exemplification of the first degree on a class of candidates on Thursday evening, October 21. The degree team, which will exemplify the degree, are now rehearsing their various parts and it is expected that the work will be put on in a very satisfactory manner. Heretofore it has been the custom of Albuquerque council, under a special dispensation, to exemplify the three degrees at one time, the work being put on during fair week. The council, however, has grown to such proportions that it is necessary to exemplify the degrees one at a time.

The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again.
